

## HOW DOES KSSS MEET MY CHILD'S NEEDS?

Every student is an individual and so their needs are considered on an individual basis and provided for on a personalised level. KSSS determine these needs in consultation with the student, parents/carers, previous schools and other agencies who work with the student (& family unit). KSSS has a clear induction plan for each student which will occur detailed on entry assessments for Literacy, Numeracy, social, emotional & behavioural needs.

KSSS works closely with and refer to other specialist agencies as appropriate. We have regular staff training and constantly evaluate the progress of all our students.

OFSTED say our provision is "GOOD"; IQM say "They don't tell you what's on offer, they match what the student needs by assessing and understanding".
