

Shugborough

Last week I went to Shugborough and we did indoor climbing I went nearly all the way it's a great activity place. Also we did caving. I didn't like it at first because it was underground but I kept doing it and conquered it and sat with the people who went in the middle.

I'm so lucky I got to go again yesterday we did fire lighting. I really enjoyed that and we toasted marshmallows which were very tasty. After that we had the chance to do outdoor climbing it was like caving I kept pushing myself and everyone was encouraging me and I managed to get to the top. I was that confident I did it again and I learnt how to abseil; CJ the instructor taught me and the rest of the group how to lower. Next week I think we're doing water activities.
