

A local organisation was awarded Arts Council funding to generate an art cycle trail around Tamworth. Kettlebrook students were invited to be part of the project and we worked with local Graffiti artist 'Wingy' to generate a Japanese inspired mural.

Almost all students were involved in the event. Many sprayed and learnt new techniques, whilst others talked to Wingy about his life and work and soaked up the atmosphere.

Elements of the Kettlebrook mural have also been replicated on the cycle trail in another part of Tamworth.

Students benefitted hugely from the project on so many levels and were a credit to school and to themselves. All those involved will also be able to use the experience towards their Art qualifications.

Some magic from Si based
on Japanese printmaking

Tuition from the master!

Brave enough to have a go

Discussions

So much harder than it looks!

Fantastic focus

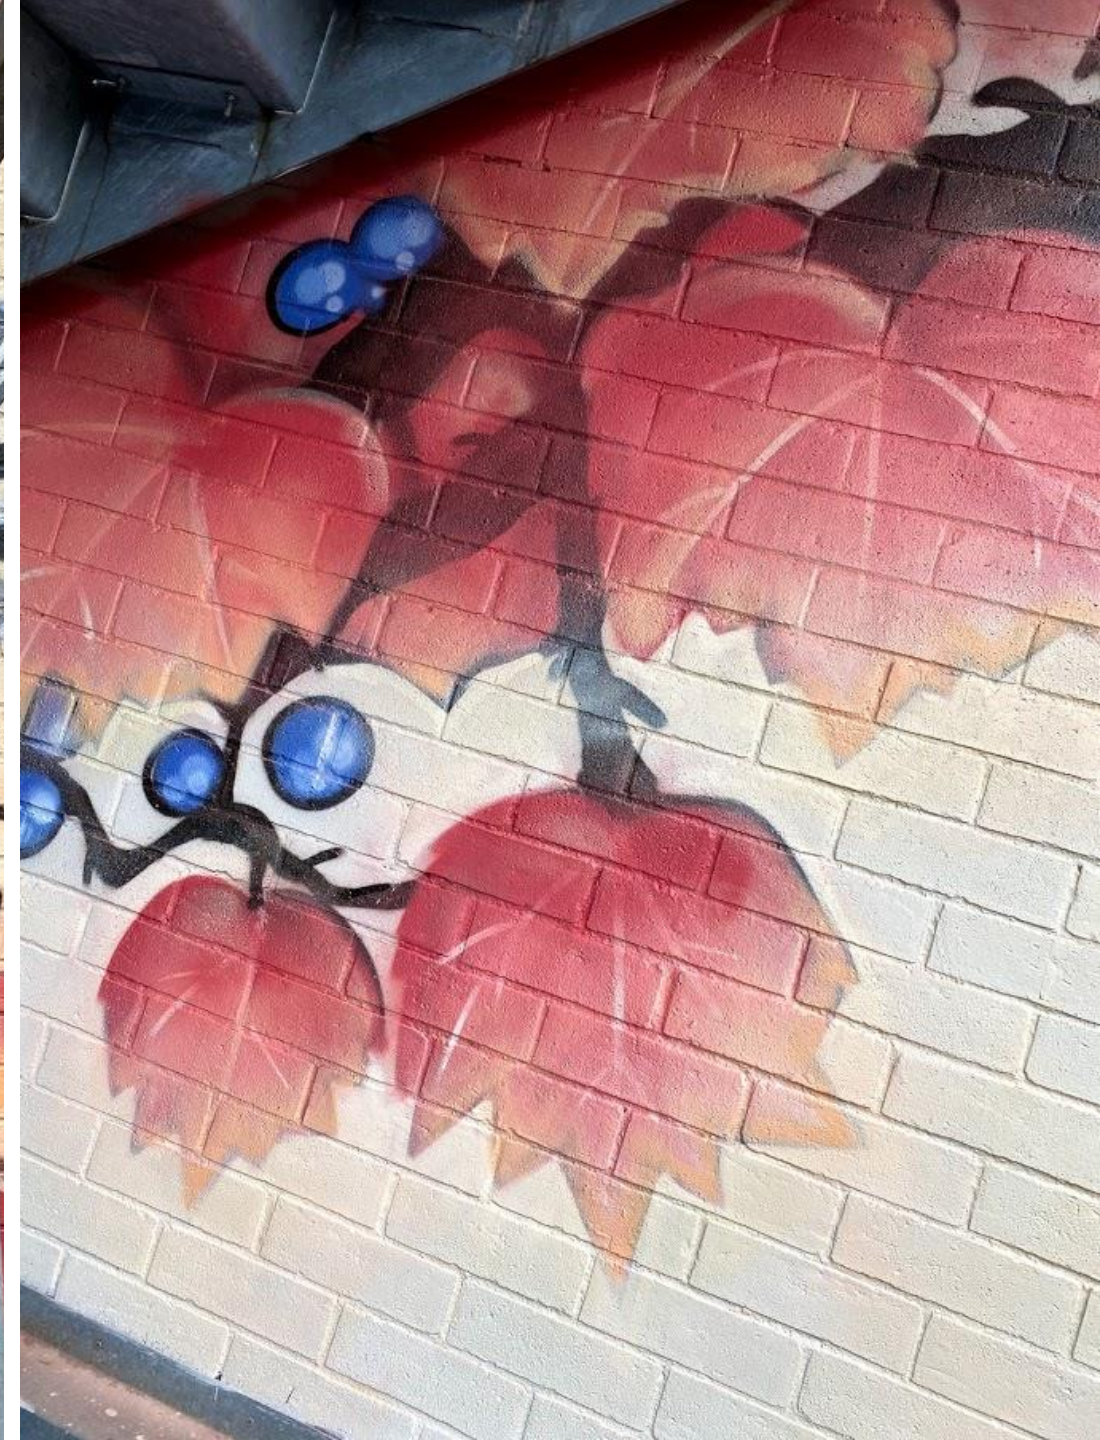

New skills

On a roll!

Ringside seats and tough interviews!

Total transformation
