

MEET THE CAREERS TEAM FOR KSSS!

Miss K Wright Careers Adviser BSc (Hons), Dip RSA, RCDP

I have been a level 6 Careers Adviser for 20 years working within different schools and alternative provision settings in the Tamworth and Burton area. I have worked across various mainstream schools, community-based venues, pupil referral units, training providers, with students who are electively home educated and those who are NEET (Not in Employment, Education or Training). I have significant experience of working with young people with complex needs and barriers to progression. I enjoy supporting young people to develop their ideas and start sowing the seeds of their early career. I believe that the process of guidance is not just about what information young people need to make key decisions, but also about the processes involved in decision making. These decision-making skills help ensure our young people are equipped with some of the tools they will continue to need to build their careers throughout life.

I am a qualified and registered professional member of the Careers Development Institute (CDI)

Ms N Rathour Careers Leader, NVQ in childcare

I have been working with a variety of range of students for around 13 years at Kettlebrook. At Kettlebrook Short Stay School, I have built up great relationships with our young people and this has been used to further support them with their POST 16 placements. As the careers leader, I am responsible for keeping a permeant communication stream between the career's adviser and the young people, during the days which the careers adviser is off site. I am responsible for providing our young people with college information within their area as and when this arises; as well as helping our young people to discover what they want to do with their futures; work with students when they return to school from Work Experience etc. I believe that our young people do need guidance in order to achieve their full potential and I am honoured to be part of this journey.

Mrs K Jefferson Head of School BSc; PGCE

I have been the Head of School at Kettlebrook and have worked closely with the Executive Headteacher (who has over 15 years' experience at Kettlebrook). I am so proud to lead and manage our small Pupil Referral Unit – especially as most of our students will achieve positive destinations – whether it is returning to mainstream, onto other AP or POST 16 destinations which cover: A Levels; Level 1 and 2 courses at College; Apprenticeships; Employment. On average 95% of our Year 11 leavers secure their chosen destination of their first choice. All students have access to our careers programme per week and then by Year 11 there are many 1-1 meetings and discussions with staff and our excellent Careers Advisor – who has 20 years' experience and knowledge of the work places in Tamworth. Kettlebrook was the first PRU in the Country to receive the Quality in Careers Standards award and it is because we put careers at the heart of curriculum and holistic offer.
