

Meet the Careers Team

Miss S Norrington

Careers Leader, Assistant Headteacher, B.Ed (Hons)

I have over thirty years experience teaching in different schools across England and Wales. Since 2020 I have led PSHE at Kettlebrook Short Stay School and lead Careers as part of my senior leadership role. I support staff in bringing Careers to life through their different subject specialisms as well as liaise closely with our WEX lead and Careers Advisor to help support our students find their pathway after they leave us. Guidance, support and encouragement are central to what we do for our students at Kettlebrook and we all feel passionate about supporting them finding a way not just to survive, but to thrive and contribute to their community around them.

Miss K Wright

Careers Adviser BSc (Hons), Dip RSA, RCDP

I have been a level 6 Careers Adviser for 20 years working within different schools and alternative provision settings in the Tamworth and Burton area. I have worked across various mainstream schools, community-based venues, pupil referral units, training providers, with students who are electively home educated and those who are NEET (Not in Employment, Education or Training). I have significant experience of working with young people with complex needs and barriers to progression. I enjoy supporting young people to develop their ideas and start sowing the seeds of their early career. I believe that the process of guidance is not just about what information young people need to make key decisions, but also about the processes involved in decision making. These decision-making skills help ensure our young people are equipped with some of the tools they will continue to need to build their careers throughout life. I am a qualified and registered professional member of the Careers Development Institute (CDI)

Mrs N Rathour

Work Experience Coordinator

I have been working with a variety of students for over 13 years at Kettlebrook. I build positive relationships with our young people and use this to support them on their Work Experience journey. In addition, I support the Careers Leader and other teaching staff, providing young people with careers information and learning. All young people need guidance in order to achieve and be part of our community.

Mrs K Jefferson

Head of School, BSc, PGCE

I am Head of School and am so proud to lead our PRU, especially as most of our students achieve positive destinations, whether it is returning to mainstream, onto other AP or Post-16 destinations, including A levels, level 1 and 2 courses at College; Apprenticeships or Employment. All students have access to our careers programme as well as one to one careers information, advice and guidance meetings with Kelly. We are very proud that Kettlebrook was the first PRU in the country to receive the QICS award and it is because Careers is at the heart of our curriculum and holistic offer.
